

**Job Title:** RPA Specialist for Heritage Spares – Classic Car E-Commerce Automation

**Location:** Remote or in our office located at Willy-Messerschmitt-Strasse 12, 50126 Bergheim, Germany

**About Us:** Heritage Spares is a premier e-commerce platform dedicated to classic car enthusiasts, offering a vast inventory of vintage and hard-to-find parts. As we continue to expand our offerings and enhance customer experiences, we are embracing innovative technologies, including Robotic Process Automation (RPA), to streamline operations and elevate our online presence.

SteuerNr: 203/5769/1464  
USt-IdNr.: DE360708920

**Position Overview:** We are seeking a talented **RPA Specialist** to lead automation initiatives across our classic car e-commerce platform. The ideal candidate will have hands-on experience with RPA tools (e.g., UiPath, Blue Prism, Automation Anywhere) and a passion for enhancing operational efficiency. This role will focus on automating key processes, including inventory updates, order processing, customer data handling, and report generation, ensuring seamless operations and improved user experience.

#### **Key Responsibilities:**

- Design, develop, and implement RPA solutions to streamline business operations.
- Analyze and identify repetitive processes suitable for automation across the e-commerce platform.
- Collaborate with cross-functional teams to gather requirements and ensure the RPA solution meets business needs.
- Monitor and maintain RPA solutions to ensure accuracy, performance, and minimal downtime.
- Create documentation for automated processes and provide training for end-users as needed.
- Conduct troubleshooting and implement improvements as required.

#### **Qualifications:**

- Bachelor's degree in Information Technology, Computer Science, or a related field.
- Minimum of 2-3 years of hands-on experience in RPA development, preferably in an e-commerce or logistics environment.
- Proficiency in RPA tools such as UiPath, Automation Anywhere, or Blue Prism.
- Strong analytical skills with the ability to translate business requirements into RPA solutions.
- Experience with classic car or automotive industry (preferred but not required).
- Ability to work independently and within a team, with strong communication skills.

#### **Why Join Us?**

- Work at the intersection of technology and automotive passion.
- Opportunity to innovate and make a tangible impact on operations and customer experience.
- Collaborative, supportive work environment with a focus on continuous learning and development.
- Competitive salary and benefits package, including flexible working arrangements.

**How to Apply:** If you're excited about leveraging RPA to enhance an e-commerce experience for classic car enthusiasts, we'd love to hear from you! Please send your resume and cover letter to [info@heritage-spares.com](mailto:info@heritage-spares.com) with the subject line "RPA Specialist Application – Heritage Spares."
